Clean

Fully bio-based AirCide Clear products removes stains and dirt. AirCide Clear products are easy and quick to use, and the mild odor adds even more comfort. AirCide Clear products replace traditional cleaning agents.

Desinfect

AirCide Clear products destroys viruses and bacteria on surfaces immediately after spraying. The use of the products is quick and effortless, enabling effective disinfection.

The products meet the requirements of EN 13624, EN 13697 and EN 13727.

Protect

AirCide Clear products provide durable and long-term protection for surfaces against coronaviruses. They keep surfaces clean for longer, avoiding viral hotspots.
